

510 Ampere

Battery-Booster 510A mobile emergency starter charger 12 Volt petrol car < 2 litre

KSTOOLS

550.1610

- Mobile emergency starter charger for 12 Volt car batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket of accessories and power tools
- Laterally attached storage device for jumper cables
- Display showing reverse polarity and battery LED capacity display
- Not suitable for larger diesel engines

Battery:	12 Volt / 19 Ah
Starting current CA:	510 Ampere
Peak voltage:	1000 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning
Cable:	Length 1 m / diameter 25 mm ²
Battery clamps:	Fully insulated
Charging unit:	220/230 VAC / 14,8 VDC / 2 Ampere
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	315 x 365 x 120 mm
Weight:	8 kg

700 Ampere

Battery-Booster 700A mobile emergency starter charger 12 Volt petrol and diesel cars > 2 litre

KSTOOLS

550.1620

- Mobile emergency starter charger for 12 Volt car batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket of accessories and power tools
- Laterally attached storage device for jumper cables
- Display showing reverse polarity and battery LED capacity display

Battery:	12 Volt / 16 Ah
Starting current CA:	700 Ampere
Peak voltage:	1600 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning
Cable:	Length 1 m / diameter 25 mm ²
Battery clamps:	Fully insulated
Charging unit:	220/230 AC / 14,8 VDC / 2 Ampere
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	315 x 365 x 120 mm
Weight:	8 kg

Battery-Booster 800A mobile emergency starter charger 12 Volt petrol and diesel cars \geq 2 litre

550.1630

- Mobile emergency starter charger for 12 Volt car batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket of accessories and power tools
- Display showing reverse polarity and battery LED capacity display
- Possibility for testing the battery condition by push of a button
- Starter charger comes complete with a set of cables

Battery:	12 Volt / 2 x 19 Ah
Starting current CA:	800 Ampere
Peak voltage:	1500 Ampere
Fusing:	425 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning + LED
Cable:	Length 1,50 m / diameter 50 mm ²
Battery clamps:	Fully insulated
Charging unit:	110/240 AC / 14,8 VDC / 4 Ampere
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	513 x 360 x 190 mm
Weight:	18 kg

Battery-Booster 700A mobile emergency starter charger 12 and 24 Volt small commercial vehicles

550.1640

- Mobile emergency starter charger for 12 and 24 Volt car batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket of accessories and power tools
- Display showing reverse polarity and battery LED capacity display
- Possibility for testing the battery condition by push of a button
- Starter charger comes complete with a set of cables

Battery:	12 & 24 Volt / 2 x 16 Ah
Starting current CA:	700 Ampere
Peak voltage:	1600 Ampere
Fusing:	425 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning + LED
Cable:	Length 1,50 m / diameter 50 mm ²
Battery clamps:	Fully insulated
Charging unit:	110/240 AC / 14,8 VDC / 4 Ampere
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	513 x 360 x 190 mm
Weight:	18 kg

Battery-Booster 1100A
mobile emergency starter for 12 Volt cars and 24 Volt large trucks

KS TOOLS

550.1650

- Mobile emergency starter for 12 and 24 volt vehicle batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket for accessories and power tools
- LED display showing reverse polarity and battery capacity
- Possibility for testing the battery condition by push of a button
- Starter comes complete with a set of cables

Battery:	12 & 24 Volt / 2 x 26 Ah
Starting current CA:	1100 Ampere
Peak voltage:	3500 Ampere
Fusing:	500 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning + LED
Cable:	Length 1,50 m / diameter 50 mm ²
Battery clamps:	Fully insulated
Charging unit:	110/240 AC / 14,8 VDC / 8 Ampere/ 3 steps
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	513 x 360 x 190 mm
Weight:	25 kg

Battery-Booster 1100A
mobile emergency starter for 24 Volt large trucks

- 550.1660**
- Mobile emergency starter charger for 24 Volt vehicle batteries
- With isolation key and circuit breaker
- 12 Volt cigarette lighter socket for accessories and power tools
- LED display showing reverse polarity and battery capacity
- Possibility for testing the battery condition by push of a button
- Fully insulated battery clamps
- Starter comes complete with a set of cables

Battery:	24 Volt / 2 x 26 Ah
Starting current CA:	1100 Ampere
Peak voltage:	3500 Ampere
Fusing:	500 Ampere
Main switch:	Disconnecting switch On/Off
Polarity / Alarm:	Audible warning + LED
Cable:	Length 1,50 m / diameter 50 mm ²
Battery clamps:	Fully insulated
Charging unit:	110/240 VAC / 14,8 VDC / 8 Ampere/ 3 steps
Protection:	against voltage spikes
Approvals:	VPA tested
Housing:	Impact proof PE
Size:	513 x 360 x 190 mm
Weight:	25 kg

Trolley for Battery-Booster

- 550.1665**
- Trolley for mobile employment in the workshop area
- Extra large wheels fitted offer easy passage over obstacles, e.g. cables, hoses etc.
- Practical stowing for battery clamps
- Suitable for transporting boosters **550.1650** and **550.1660**

Battery-Booster charger

- Designed for non-stop use
- The integrated automatic safety protection circuit allows the battery chargers to be connected to the starter for a long period, without being damaged. This enables the booster to maintain a charge during non use.

- 550.1601** Battery charger - BOOSTER 510 + 700 A (550.1610 a. 550.1620)
- 550.1602** Battery charger - BOOSTER 700 + 800 + 1100 A (550.1630, 550.1640 a. 550.1680)
- 550.1603** Battery charger - BOOSTER 1100 A (550.1650 a. 550.1660)
- 550.1604** Starter cable set 50 mm², length 1,5 m, complete with plugs and cable clamps

Battery tester for 6 and 12 Volt starter batteries

KS TOOLS

550.1690

- Effective with 12V application to 100A, with 6V designed for 50A
- For testing 6 and 12 V batteries up to 1000 CCA
- Can be used for testing: Alternator, starter motor, and battery voltage
- Load test with CCA (Cold start load) display
- Rocker switch under the display field
- Analogue display 0-16V
- Clamp storage on the unit
- User friendly, rubber insulated safe carry grip

Battery terminal cleaning tool

KS TOOLS

700.1195

- Removes corrosion from car battery terminal
- Scraper for battery plus terminal (+)
- Scraper for battery minus terminal (-)
- Conical mill for battery terminals (+ and -)
- Made from forged aluminium with steel milled inserts

Puller for battery clamps and windscreen wiper arms

KS TOOLS

700.1190

- Self centering puller for small components, especially for automotive applications
- Fine adjustable extraction using the aluminium knurled wheel
Take up: 0 - 50 mm
- Spindle with fine thread and T bar, adjustable depth: 0 - 20 mm
- Freely swivelling end piece for careful contact to the component
- Total length: 100 mm
